- GitHub

ABOUT ME

Recently graduated Software Engineering student from Al-Zaytoonah University, holding a Cumulative Percentage Average of 87.2%. I am actively seeking internship, training opportunities, or entry-level jobs to apply and further develop my skills in web development, application development, data science, or cloud computing. Committed to continuous learning and contributing to innovative technical projects.

PROJECTS

Graduation Project | Venue Hub

- Role: Full-Stack Developer and Quality Assurance Contributor
- Technologies: ASP.NET, SQL Server
- Description: A web platform connecting venue owners with individuals to streamline the booking and management of event spaces.
- Key Contributions & Achievements:
  - Conducted requirements analysis to define and document system functionalities.
  - Conducted functional and user acceptance testing to ensure system performance and specification adherence, identifying defects
  - Performed hands-on debugging and manual testing, leveraging console logs to ensure code integrity.
  - Integrated multiple layers of security at both database and server levels to protect sensitive user information.
